Indore, M.P.

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Database Management System
- Object Oriented Programming

WORK EXPERIENCE

Dice Enterprises Pvt Ltd.

Software Developer Engineer

July 2024 - Present

Pune, Maharashtra

- Designed and implemented core modules for a corporate spend management system, including Procure-to-Pay, Travel, and Expense management, ensuring seamless integration across Admin, Employee, and Vendor dashboards.
- Resolved 50+ issues monthly using JIRA, adhering to Scrum/Agile methodologies to ensure timely deployments and improved system efficiency.
- Onboarded 20+ clients within two weeks, enabling timely invoicing and doubling revenue generation compared to the previous year.
- Delivered critical features and resolved high-priority issues for key clients, including Bajaj, Lenskart, and HDFC, contributing to significant revenue growth.
- Collaborated with 15 back-end developers to optimize API functionality, enhancing front-end and back-end integration for improved system performance.
- Developed 100+ reusable and scalable components using React, JavaScript, Redux, HTML, and CSS, reducing development time by 30%.
- Optimized 150+ React components using advanced hooks (e.g., `useImperativeHandle`, `useMemo`, `useCallback`), reducing bugs and rendering times by 50%.

Walkover Web Solutions

Software Developer Engineer

January 2024 - June 2024

Indore, M.P.

- Spearheaded a 4-member front-end team to develop a real-time chatbot with advanced API transfer capabilities, improving user engagement by 30%.
- Implemented customizable response generation in the chatbot, increasing interaction rates and user satisfaction.
- Designed 3 additional interface components (table, pie chart, graph), enhancing analytics functionality and expanding the component library to 13.

PROJECTS

Mask Advisory System | React Native

October 2023 - November 2023

- Developed a framework to monitor air quality and issue pollution-based alerts, improving public health awareness and mask usage.
